

BHAWNA SAINI

Aspiring Software Engineer | Web Development & Enterprise Applications

Meerut, Uttar Pradesh | 6396096208 | sainibhawna54184@gmail.com | [linkedin.com/in/bhawna-saini-177300337](https://www.linkedin.com/in/bhawna-saini-177300337) | github.com/lavish611 | leetcode.com/u/Bhawna_saini

PROFESSIONAL SUMMARY

Final-year B.Tech Information Technology student with a solid foundation in SQL, JavaScript, HTML, CSS, and Python, and hands-on experience building responsive, database-driven web applications. Strong grasp of Data Structures & Algorithms and problem-solving, with a keen interest in enterprise software and consulting environments. Quick learner, adaptable to new platforms and tools, with strong written and verbal communication skills; seeking a Software Engineer role to contribute to and grow within a technology-driven consulting organization.

CORE COMPETENCIES

SQL & Database Management • JavaScript • HTML & CSS • Python • React • Node.js • Excel • Power BI • Data Structures & Algorithms • Problem Solving • Web Application Development • Git (Basic) • Written & Verbal Communication

TECHNICAL SKILLS

- Web Development & Database: SQL, HTML, CSS, JavaScript, Database Management
- Programming Languages: Python, JavaScript, Basic C++ (currently strengthening C++)
- Frontend/Backend (Familiar): React, Node.js
- Data Analysis (Familiar): Excel, Power BI
- Core Concepts: Data Structures & Algorithms (DSA), Problem Solving
- Tools & Platforms: VS Code, Git (Basic)

PROJECTS

Cyber Threat Detection System — Final Year Project (Ongoing) | *Python, HTML, CSS, JavaScript, SQL*

- Engineering a real-time cyber threat detection system to identify and flag suspicious network activity, malware patterns, and potential security breaches.
- Applying machine learning techniques for anomaly detection and integrating results into an interactive, web-based dashboard for live threat monitoring.

Food Recipe Website | *HTML, CSS, JavaScript*

- Built a responsive, user-friendly website enabling users to browse recipes with detailed ingredients and step-by-step preparation instructions.
- Designed the front-end layout for cross-device usability, improving navigation and content readability.

Syntax Checker | *HTML, CSS, JavaScript, Python (Basic)*

- Developed a syntax-checking tool to identify and validate coding errors using structured programming logic and input validation.
- Implemented rule-based validation logic to improve accuracy of error detection for basic code inputs.

EDUCATION

Bachelor of Technology (B.Tech) — Information Technology

MIET, Affiliated with Dr. A.P.J. Abdul Kalam Technical University | Expected Graduation: 2027

CERTIFICATIONS

- Python for Data Science — Cognitive Class
- SQL and Relational Databases — Cognitive Class

HACKATHONS & WORKSHOPS

- OpenCode'25 Hackathon — Participant, IIIT Allahabad
- Code Clash Hackathon — Participant, IIT Jodhpur
- AI Powered Frontend Project Workshop — Nexa Soul

RELEVANT COURSEWORK

Data Structures & Algorithms • Database Management Systems • Web Development • Computer Networks (Basic)
